DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to **claims 1 and 4 through 7** have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

Claims **1 and 4 through 7** are rejected under 35 U.S.C. 103(a) as being unpatentable over Messina (US 5,357,945) in view of Nowacki et al. (US 4,621,634).

Referring to claims 1 and 4 through 7, Messina discloses the applicant's invention as claimed with the exception of providing bellow type tube that is resilient and having at least a partial memory thereby to return any desired flex position. Nowacki discloses an anesthesia tubing connections that does provide bellow type tube that is resilient and having at least a partial memory thereby to return any desired flex position. Therefore it would have been obvious to modify Messina's invention by providing bellow type tube that is resilient and having at least a partial memory thereby to return any desired flex position as taught by Nowacki in order to provide more flexibility during operation.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3743

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
